

Managed Service Provider (MSP)

LeaderStat is not just a staffing agency – we are committed to supporting nursing centers for the long-term by offering realistic and customizable workforce solutions.

LeaderStat’s Managed Service Provider (MSP) program is one of the first of its kind, as we are solely focused on post-acute care space.

We understand that HR and hiring managers are bogged down with phone calls, voicemails, and lingering emails related to scheduling. We’ll work with you to offset that load and connect with your team members to create a solid, accessible, and organized schedule.

Whether your building needs interim staff to fill direct care gaps, or individuals for dietary or housekeeping, LeaderStat’s MSP is your one-stop-shop for staffing needs. We work with preferred staffing suppliers to ensure that you have access to qualified talent quickly, all while ensuring compliance.

Advantages To Our Managed Service Provider (MSP) Program

Everything is organized in a central hub – one point of contact, one organized filing system, less risk, and opportunity for significant cost savings.

**LeaderStat’s MSP/VMS solution is all at NO extra cost to your organization. The entire solution is supplier funded.*
