

## Managed Service Provider (MSP)

LeaderStat continues to evolve as the partner of choice for workforce needs of healthcare organizations by delivering meaningful solutions that are customized and tailored to allow our clients to operate their organizations at optimal levels. These solutions range from tactical execution of supplemental staff or interim leadership to fully outsourced and managed consulting programs.

We highly value our relationship with our clients and believe a Vendor Neutral solution, that provides for the management and oversight of all external talent agency usage, can be highly beneficial to your healthcare organization. The combination of LeaderStat's program management expertise along with an industry leading Web-based Technology will deliver many benefits to your organization.

While most MSP/VMS programs are acute care focused, our solution is Post-Acute centric. We understand the special challenges and workforce issues in our sector and have developed a program that simplifies and streamlines processes. Our innovative Workforce Solutions Program creates consistent standards for quality, compliance, and best practices.

## Advantages To Our Managed Service Provider (MSP) Program

Everything is organized in a central hub – one point of contact, one organized filing system, less risk, and opportunity for significant cost savings.
